The Universal Circle of the Ambassadors of Peace has as goals:

“To create a UNIVERSAL BOND OF PEACE”

Between the Actors, Craftsmen and Organizations of Peace and International Families of Peace quite simply!

Ambassadors of Peace:

Are Nominated for their acts, their Spirit, their Words, and become examples alive of Peace, Fraternity, humanity, in their daily life.

They are alive examples of PEACE where that they are, so much in their family, professional, associative Daily newspaper where they are, so much on the regional plan, National, which World.

They are the human torches of Universal spirit of Peace and Eternal.

Guy Moreau France

Friendly Poetry of the Whole World

Worker of readable creation, Poetry, since 1985, my work having had to adapt to the information which is unfortunately not always that of the era of writing since it is that of the era of the image, I created for my book bringing together my collections an internet written radio, then internet poetry, then the newspaper which is part of the work

La Poésie journal la lumière which I write by being as diligent as I can, but it is not a daily. I do not write 365 La Lumière newspapers, per year, a little less.

And I am looking for how to manage the writings in the sense of their conservation because Poetry is not created to disappear, and of a written computer and digital broadcasting because the broadcasting is always oral and is not always Poetry, is not always universalist Francophonie music and poetry while I have a very large number of poems created from the broadcasts often of the morning or at other times of France Musique.

It is by forging that one becomes a blacksmith, It is by computerizing that one can become Citizen(ne) of the earth?

Dear GGHA members and all peacemakers,

We are happy to inform that the GGHA, more than 600 members from more than 50 countries, without a single objection approved on June 22, the Day of Remembrance and Sorrow, peacemaking Nomination to the Highest Honorary Title: "CREATOR/DEFENDER OF WORLD HARMONY/LIFE/PEACE." It includes 27 approved persons of "Creators/Defenders" from different areas and 6 approved persons to the lowest and shameful title of "Destroyer of World Harmony/Life/Peace". They are presented in our updated Message attached with additional publications, a journalist and the photos. They are published with all the responses on the GGHA Gallery here:

https://peacefromharmony.org/?cat=en_c&key=513

https://peacefromharmony.org/?cat=ru_c&key=543

The meaning of our Nomination is to mobilize public opinion of the world civil society, especially the West, whose leaders are guilty and responsible for the catastrophic, 99%, threat of total nuclear genocide, to a clear understanding of the life/peace CREATORS/DEFENDERS and its DESTROYERS. With this Nomination, we are trying to revive the peace culture expelled by the West at the innovative level of fundamental and verified Peace Science, which it fears, suppresses and does not want to know, especially 80 years after WWII in its nuclear, suicidal civilization after its Hiroshima/Nagasaki terror. Today, we must clearly, scientifically understand "Who is Who" on the Armageddon verge.

To do this, we distribute it as widely as possible in our networks and publish it on our websites. We sent it to all recognized leaders, the Presidents of China, Russia, Hungary, Slovakia, the US, EU and to the UN. We call on all courageous and independent journalists, all true peacemakers, to publish our Nomination. Your publication of this peacemaking document of civil society people's diplomacy will be a confirmation of your honesty, courage, independence and resistance to the mainstream media rabid Western censorship completely immersed in warmongering. We call on all honest, independent media and all its journalists to publish our Nomination as a peacemaking bomb of nonviolence and peace culture against war.

We wish everyone courage in the conscious defense of life on Earth through active peacemaking resistance, the examples of which are provided by our Creators of World Harmony.

HUM-Human Unity Movement Humanity Reconciliation (and Forgiveness) Day on January 30, 2025

Proposal:

1 Why we kill and hurt each other:

Because we are all part of states or incorporated weapons that force us to harm - or to be injured and killed as deserters.

States are based on total inequality (injustice), organized in a hierarchy of rank and economic means so that the relationship is forced, inhuman and therefore effective in doing evil.

2 Why dialogue or communication is impossible:

Each weapon (state) represents itself as defender and moral, while considering the other as attacker and immoral, but the reality is that we all anticipate the projection of the damage of the weapon that is enough to subdue us, so we are determined to try to arm ourselves and disarm the other as much as possible - even by war or mutual destruction.

While within the state we try to put the others at the lowest part of the hierarchy.

3 Recognize the evil in the weapon:

The weapon is evil, because it is the object of damage. Personal liberation is the disillusionment of the figures that hide or justify evil, and human liberation is the agreed and universal disarmament.

4 The peace dividend:

Disarmament must be universal; unilateral disarmament would only serve another weapon.

This universality justifies or implies that the resources diverted from military use are used to facilitate dignified living conditions for all and to integrate humanity into cooperation for the common benefit. Except weapons, everything else is to serve us and bring us harmony and common sense.

5 Transparency and publicity:

All humans are equal in reason and understanding. The elimination of weapons leads us to equality and human community through public and transparent decisions, because, except evil, that is, weapons that are there to harm us and therefore must be hidden, what is good is realized by its simple proposal or publicity - as is the case with this same proposal.

-Proposal:

1. Until the Day of Reconciliation, we share and spread this message as much as we can.
2. On the Day of Reconciliation, we ensure that this communication effectively reaches all humanity and then begin disarmament through transparency and publicity.

Now you are responsible for peace!

Alain Million France

Writer poet

The work of humanity is not finished and the history of the universal desire for peace and Fraternity is built every day in France and throughout the world. And we are its artisans, each and every one of us.

Let us be well aware of this.

We are millions of citizens to be touched in the heart, wounded, by the writings, the gestures, the words that call for hatred, racism, xenophobia, the rejection of the other.

Violence and hatred fuel social networks in an intolerable and unacceptable way. And yet, in this world where populism, nationalist resurgence, xenophobia, racism are shaking up our entire continent, I remain determined to defend the colors of PEACE.

To know LIVING TOGETHER, I will put on my most beautiful clothes of Love, those that warm hearts in the warm sun of peace and fraternity.

A new hope, a moral revolution, a new form of thought, a shared solidarity, concern and respect for the Other, here are the challenges of tomorrow that together we take up to access peace and fraternity.

They want to share us, we have chosen to live together

The vision of the ideologues of Hate and Racism is a vision that is based on a perception of conflicts in international relations where physical, moral, and cultural barriers must be put up to protect the country in which we live.

This position rejects with contempt and disgusts the other, the one who is different because for these ideologues, the Other is the enemy, the foreigner.

For us, the Other is our fellow man, our friend, our brother, our sister. A chance, a value arousing respect, dignity, understanding, recognition. Today, because of the suffering due to unemployment, financial difficulties, outrageous capitalism, many of our fellow citizens feel swept up in the whirlwind of the rejection of the Other.

So, what to do?

I have the utopia of believing but my dream is shared so a shared dream can become reality. I have the utopia of believing that one day hatred and racism will be swept away in hearts and will make way for universal love. I have the utopia of believing that thanks to school, the youth of tomorrow will become citizens of the world and will have as their ideal our earth as their Earth-Homeland. I have the utopia of believing that one day with intelligence, we will progress together by trying to awaken consciences for a world of peace and fraternity. So, for the challenges of tomorrow, let us ask ourselves the question:

And why not?

All brothers and sisters in HUMANITY. We are all from the same family called humanity. United by a multi-rooted culture, nourished by our hopes and our sorrows, our wounds and our healings, without hierarchy between our origins, our cultures, our colors and our languages.

We are Humans on the move, equal among themselves, who have the will to meet and work together for the good and the future of our humanity.

This is the Strength of our humanist values.

Ziad medoukh Palestine

School teacher

After only one month of their first French course at the French language center, young students from the University of Gaza express themselves and introduce themselves in French.

These motivated students from different departments of the Palestinian University of Gaza are progressing rapidly in French thanks to the efforts of French graduates who teach French in an attractive and interactive way at the center.

For these students, learning French means having an opening to the world and developing their linguistic and communicative skills.

The French language center offers various courses and activities for university students and for the external public.

Prof. José Carlos de Arruda Brazil

Professor

My main work as an Ambassador of Peace here in Brazil is the commitment I have to write my poems focused on the good things in life, peace, love, fraternization and good social coexistence.

I commit to myself to write only the truth, always making values such as morality and good customs prevail. When I publish interesting things on social networks, they are always based on this profile mentioned above.

I am the founding president of an international academy of letters on Facebook, professor, poet, ambassador of peace for the OMDDH and UNIVERSAL CIRCLE OF PEACE AMBASSADORS (France/Switzerland).

I will send all my texts to this email as soon as I publish them in my gyms and groups.

I will always be vigilant with the aim of promoting and spreading the culture of peace throughout the world.

Chintamani Yogi Nepal

Humanist Professor

Dr. Yogi dreamed of creating a refuge, a place to integrate services and bring all social organizations together on one platform, presenting a fantastic example of ecology and spirituality, connecting East and West, connecting nature and culture, and uniting spirituality and humanity. Shanti Sewa Ashram, translated into English – Peace Service Center, encourages selfless service to humanity through programs that strengthen the intention of peace, promote interfaith cooperation, non-violence, and spiritual and philosophical awareness.

was established in Koteshwor, Kathmandu in 2002. Originally purchased through generous donations from the Yogi family, the community center/ashram was initially a simple one-story apartment with an area for Satsanga.

Today it is a three-storey headquarters building and a regular meeting place for workshops, lectures and various other regular programmes for all spheres of the community. This development is a testament to the sincere faith in the abilities of Dr. Yogi who continues to guide the Community Centre/Ashram in its vision.

The hope of ASS is that underprivileged children, women and the elderly will be provided with holistic services irrespective of religion, caste, gender, sect or nationality. SSAS is a large open house where one can get service, prayer, enlightenment and enjoyment.

URI Europe

“Sowing Peace” - Preparations for the URI Europe Youth

Camp From 1st to 6th August 2024, 20 young people (ages 14-17) from Albania, Bulgaria, the Netherlands and Belgium will gather in The Hague to experience the result of an exciting collaboration between 4 URI Cooperation Circles. For the past year, the leaders of Bridges CC, Udhetim i Lire, Voem and Kleurrijk Segbroek have been planning and working together to create a 5-day youth camp for the youth of their organizations.

The theme of the camp is “Sowing Peace”, focusing on supporting young people at the beginning of their peace building journey, learning about interfaith dialogue, ecological justice and the arts as a means to cultivate cultures of peace. As the team says, “We chose the theme ‘Sowing Peace’ to emphasize how this camp experience will be the beginning of building peace builders who have a deep understanding of the connection between ecological justice and peacemaking. We know that when we care for our planet and are conscious of our impact on the world, it translates into how we care for each other and reduce harm to each other.

We want to provide an opportunity for participants to connect, share experiences, learnings, and visions to build a world of peace through creativity, dialogue, and environmental justice. We want the camp to be a safe and joyful place where we can put into practice the peaceful world we imagine.

The goal of the United Religions Initiative is to promote sustainable and everyday interfaith cooperation, end religiously motivated violence, and create cultures of peace, justice, and healing for the Earth and all living things.
