## EDITORIAL

*de la Présidente*

**GABRIELLE SIMOND**

The Universal Circle of the Ambassadors of Peace has as goals:

“To create a UNIVERSAL BOND OF PEACE”

Between the Actors, Craftsmen and Organizations of Peace and International Families of Peace quite simply!

Ambassadors of Peace :

are Nominated for their acts, their Spirit, their Words, and become examples alive of Peace, Fraternity, humanity, in their daily life.

They are alive examples of PEACE where that they are, so much in their family, professional, associative Daily newspaper where they are, so much on the regional plan, National, which World.

They are the human torches of Universal spirit of Peace and Eternal.

## Teacher Ada Aharoni Israel

Founding President IFLAC WORLD

### IFLAC CHARTER

We believe that culture and literature can promote peace, freedom and the enrichment of the quality of life. On the threshold of the 21st century, we will endeavor to pave the way for the realization of our main ideal "one world and one humanity, all living in peace".

Our goal is to help build a Middle East and a world beyond war in the 21st century, through literature, culture and art.

This effort is in harmony with the Universal Declaration of Human Rights set out in the Charter of the United Nations.

We fight for freedom of speech and expression, and to be free from hostile and oppressive violence, whether war or gender, physical, mental or moral oppression.

We believe in the right of people everywhere to live in peace, and in their rights to pursue their diverse cultures and human endeavors and to achieve equal civil justice.

The International Forum for Literature and Culture of Peace (IFLAC) is a voluntary association founded and led by Egyptian-born Israeli writer Ada Aharoni (Ph.D), since 1999. IFLAC WORLD has a global reach under our main ideal:

"one world and one humanity, all living in peace".

## Dr Rafael Merida Cruz-Lascano Guatemala

I am extremely honored to receive such a highly distinguished appointment, and I enthusiastically offer to carry it with dignity. with real emotion, it exalts me and commits me to continue with much more responsibility in the fight for PEACE, one cannot alone in such difficult situations of inequality, insecurity, terrorism, polarized political discourse and genocide.

IT IS NECESSARY THAT UNITED WE SEEK A BETTER WORLD OF PEACE. Human mobility is not a threat if it is properly managed, it can help unite the world, creating more opportunities confidently supported, with the voice from above. To the honorable people who have carved out this difficult journey of mine, I sincerely thank you, and with humility I explain, I will not name names so as not to offend if someone forgets. Millions of writers live under the shadow of their projects because they don't have the opportunity for their tool (their written word) to be heard. In his inflammatory language promoter of PEACE. Local governments and organizations are simply not interested.

We all, with our pen, have a duty to fight against social hatred and serve as a model of tolerance and moderation. I myself am a simple example, like many. But nobody ever expected that he would reach a Man of Corn, an Ibero-American Poet, a SELAE Prize...

And today a member of the Universal Circle of Ambassadors of Peace. For my 70 years of sailing in literature, this tribute is a symbol that I will wield with honor. Since the UNIVERSE IS SICK, I do not diminish any merit received, each one has their unique and particular gratification for my letters, before each one, I express my spirit of gratitude.

I thank Madame Gabrielle Simond and her Council of Ambassadors. You can be sure that I will know how to honor her as a person, as a Guatemalan, as a Central American and as a human being, since most people can materialize her aspirations from her place of origin. Thank you for giving me a vigorous, thriving, healthy and growing appointment that I proudly hold today.

Thanks to all of you for your attention.

## Ziad Medoukh Palestine

Teacher

Despite an explosive situation in the Gaza Strip, and in order to reassure the deeply traumatized children after the 11 days of intensive Israeli bombardments on the Gaza Strip last May, motivated young people continue their actions and their recreational activities, in order to bring psychological support to children throughout this devastated region.

On Tuesday March 15, 2022, four young people, including a psychologist, organized an animation and psychological support activity for children in Gaza City. This activity was part of the seventh part of the psychological support program developed and implemented in September 2014, after the major Israeli summer offensive.

The main objective of this program was to meet children to make them forget the horrors of several Israeli military aggressions.

The 50 participants were very attentive and very interested. They greatly appreciated these fun activities. They showed joy and an excellent welcome.

The team formed in September 2014, and which takes care of various reception centers in the Gaza Strip, offered them several activities. During this session, the children, boys and girls had a great time, with moments of happiness and laughter mixed with warm applause despite the tragedy experienced.

To follow some of these varied activities for the children of Gaza, click on this link produced by the channel "Gaza la vie

## Dr Yogi Chintamani Nepal

Ashram Shanti Sewa (SSA)

Peace Service Center (PSC-Nepal)

Dr. Yogi dreamed of creating a place or a refuge where he could integrate all services, gather all social organizations on one platform, present a fantastic example of ecology and spirituality, bridge the East and West, connecting nature and culture, and uniting spirituality and humanity. Shanti Sewa Ashram, translated into English – Peace Service Center, encourages selfless service to humanity through programs that strengthen the intention of peace, promote interfaith cooperation, nonviolence, and spiritual and philosophical awareness. The hope of ASS is that disadvantaged youth, children, women and elderly benefit from holistic services regardless of religion, caste, gender, sect or nationality. SSA is a great open house where one can get service, prayer, enlightenment and fun.

## **Germain Dufour Canada**

### **President Global Community**

The existence of Souls does not necessarily imply a special beginning of the Universe. The Universe may have never had a beginning and probably never did. Souls can only guide the matter of the Universe to serve Soul Life. Observations of the Universe show the stars in our galaxy, galaxies, clusters of galaxies, super clusters of galaxies, and many other special objects. A theory of the observable Universe that has stood out over the past decades is the Big Bang theory. Different types of data point at the Big Bang theory.

At the early stage of this expanding Universe, every particle in the Universe had a Soul, and each being a small part of the primeval consciousness of Soul Life. Soul Life exists everywhere in the Universe and in every particle of all galaxies. Souls have an important intrinsic quality, they can merge together, a group of Souls can become one Soul, a brighter one, different, like the Soul of Humanity. This is what Souls do best, and it is to unify to better serve Soul Life. Souls can evolve as well. A Soul's primary goal is to serve Soul Life. A Soul can affect matter to some extent so as to achieve the primary goal of forming and protecting Life in the Universe.

A Soul does not try to control us. A Soul accepts us as we are. We can have a close relationship with our Soul and live a Soul life. Every lifeform on Earth has a Soul as well. All minerals and plants, every particle in the Universe has a Soul. This is because Soul Life exists everywhere in the Universe and in every particle of all galaxies. Soul Life is conscious of the Universe through Souls, and we are conscious of Soul Life because of Souls. There are many unanswered questions about Souls and Soul Life, and the human heart and mind are still exploring many possibilities. We will never find all the answers.

Soul Life let us be free. We are free to make choices between an infinite number of possibilities at each instant throughout our lives.

. That is why we could never repeat exactly the same life all over again even given the same original circumstances. We are free to decide between right and wrong. We are free to grow spiritually and live better lives with our Souls and Soul Life. Soul Life does not tell us what to do or what not to do, nor does our Soul.

Because of the danger of life extinction on Earth, the Soul of Humanity will be helping us for some time. This makes a lot of sense! If we were a Soul would we prefer to serve Soul Life in a dust particle found in the empty space between the oldest galaxies? We would still be with Soul Life! But the next particle might be a million light years away. Pitch dark! We could not even see or sense the light of the nearest galaxy. We could not see anything because we would have to be in a lifeform to do so. Not a very good place to be conscious of Soul Life. As a Soul we would still be with the other Souls but we would not taste life in the physical Universe. Just a particle!

Or would we prefer to be on Earth or on any other planet where there is life. As a Soul we would probably prefer to serve Soul Life within a human being or within some other advanced lifeform in the Universe. There is a lot to be conscious of in any life form on Earth. There is so much more to be conscious of in a human body. Can we believe that every life form has a Soul just like ours? Well, with some differences! All Souls are different because Souls have lived different experiences.

Symbiosis has worked throughout the evolution of life on Earth. Knowing that Earth is a spiritual entity as well as a physical entity in space and time in the Universe we begin to have a better relationship with Earth and with all its living inhabitants. This way Earth management will become a spiritual and a natural process whereby each person is responsible and accountable for its management the best they can. Peace in the world and Earth management are our responsibility and in the hands of all of us working together to keep our planet healthy.

## Joël Bouzou Monaco

### President fundador Peace and Sport

#### WHEN SPORT LEARNS, TEACHES AND TRANSMITS PEACE...

Founded in 2007 by Modern Pentathlon Olympic Medallist and World Champion Joël Bouzou, Peace and Sport is a neutral and independent worldwide organization that is operational in using sport and its values as an instrument for peace.

In less than 10 years, the dynamism of sport has already enabled us to reinsert child soldiers back into society, to help war orphans rebuild their self-confidence, to reintegrate refugees, facilitate access to education, and more...

The use of sport as a pedagogic tool has motivated the international sports movement into tangible action. In parallel, our success in the field has made political leaders and governments aware of how sport can be a genuine and effective mechanism for peace.

Furthermore, we are increasingly working with international companies, to encourage them to integrate sport into their social responsibility and local policies.

## Harold W. Becker USA

### Fondateur et Président La Fondation Love

Inc. his Global Love Day – May 1, 2022, is our 19th annual celebration of our humanity. First launched in 2004 as a way of acknowledging love as the foundation of our personal and collective journey, we are delighted by the ever-expanding expression year after year as we all embody the knowing that "love begins with me."

We recognize each of YOU as part of The Love Foundation family and a vital part of our collective humanity. As part of our family, we know that Global Love Day is something you live every day in your heart. We understand that through our collective desires, we are building a new earth based on love, collaboration and joyful cooperation. Our mutual intent for a harmonious world is the driving force bringing about peace and prosperity for all.

There are innumerable ways to celebrate Global Love Day and the best one is the one that works for you; check out our website and social platforms to see how you can participate. Be sure to read Harold's Founder's Address (below) for some wonderfully uplifting energy and his annual commemoration of this distinctive day.

Keep sharing your love and remember that the most important thing in this life is your personal sense of happiness and wellbeing (what you have within, you give out). You are a magnificent, vast, multidimensional being of light with a tremendous amount of love and potential to offer this world. Be love. Share love.

## Joseph Berolo Ramos Colombia

### Founding President Unidas de las letras

It often happens that one imagines that the motif of poetry is the heroic deeds of the epic, the pastoral life of the eglga, the great romantic loves, the deep passions of the dramas and that poetry has nothing to do with the everyday and the ordinary, with the things we see every day, like the trivial and the trivial.

This simplicity and this humility of caressing everyone equally, at the same time, of sowing and cultivating love and tenderness has it, it transforms and multiplies the great Master Joseph Berolo Ramos, president and founder of the Cultural entity UNIDAS DE LAS LETRA, which I have the honor to integrate.

My friend the extraordinary Colombian writer and poet who received the "2020 Naji Naaman Literary Awards" for his Complete Works and Anthology in meritorious recognition of his poem Plenitud, shows the world and teaches his disciples in this difficult and exciting task of sow, for even the tiny, the insignificant, can be the focus of the poet's attention and gain new life by being seen through the eyes of one with creative ingenuity and a sense of wonder.

He teaches us with mastery and enormous dedication from a wise father, that everything around us is poetry when he looks at it and describes a true poet like him. That a man with problems can rise like a Quixote and fulfill his promises, just by listening to his encouraging words that uplift and teach.

That friendship and solidarity have no borders. That we all live under one roof and that it is the sky that shelters us as a whole.

That in these dark times, the ruler's poetry is the real food of the world and the books published by it are the true treasures and remedies of the soul. Those even mad and crazy passions would have remedies by immersing themselves in his poem source of serene wisdom...

I live under the brilliance of a star detached from the earthly short path attached to the affection of true life in the mystical bed of eternity.

The hours were of consumed time, of solitary passage to worlds of vain chimeras, a path already traced to a pre-sented destination where tonight's rumba ends. From vain prosaic free bonds, the soul its unscrupulous infinite journey undertakes - beyond so much sorrow and so much death, seeks power only in benevolent calm to be of Peace its messenger dove that somewhere in the world God waits!
