### **WHEN SPORT LEARNS, TEACHES AND TRANSMITS PEACE...**

Founded in 2007 by Joël Bouzou, Olympic medalist and world champion in modern pentathlon, Paix and Sport is a neutral and independent world organization which is operational in using sport and its values as an instrument of peace.

In less than 10 years, the dynamism of sport has already enabled us to reintegrate child soldiers into society, to help war orphans regain self-confidence, to reintegrate refugees, to facilitate access to education etc.

The use of sport as an educational tool has motivated the international sports movement to take concrete action. At the same time, our success on the ground has sensitized political leaders and governments to how sport can be a genuine and effective mechanism for peace. In addition,

we are increasingly working with international companies to encourage them to integrate sport into their social responsibility and local policies.

### **Our champions of peace**

Peace and Sport brings together a team of "Champions for Peace" of high level sports champions who are still active or who have retired from their sports careers and who wish to help disadvantaged communities through sport. They are role models and a source of inspiration for young people around the world.

## Leo Semashko Russie

Director, GHA Website "Peace from Harmony": [www.peacefromharmony.or](http://www.peacefromharmony.or)

My 80th anniversary coincides with this anniversary of the USSR Great Patriotic War (Eastern Front of WWII), which made up the maximum part, 95% of WWII. The first days of my life were spent under fascist bombing, marked by the death of my father and my rescue by my mother under them. A banner that compressed 80 years of my life presents this and in more detail in additional photos here:

[https://peacefromharmony.org/?cat=en\\_c&key=1000](https://peacefromharmony.org/?cat=en_c&key=1000)

My life of 80 years is 80 years of the transition world history from the era of wars/violence of the ruling partial classes to the era of peace/nonviolence of global spherons discovered by Gandhi and proved by us in the GGHA by their science created.

My anniversary is replaced by the next day, June 21, with the Global Harmony Day, established by the GGHA in the "Harmonious Era Calendar" 15 years ago

[https://peacefromharmony.org/?cat=en\\_c&key=189](https://peacefromharmony.org/?cat=en_c&key=189)

. The GGHA made a decisive contribution to the global peace from harmony by the science of spherons. It is embodied in 10 books and 80 peacemaking projects in many languages for 16 years (there are about 300 projects for the application of the spherons theory) with the participation of hundreds of humanities scientists from more than 50 countries, including 5 Nobel Peace Laureates.

Our books and projects are well known in the world. Our website with them "Peace from Spherons Harmony" is approaching the milestone of 17 million views, registering from 3 to 10 thousand of them every day. Our unique achievements have been nominated for the Nobel Peace Prize three times: 2013, 2017 and 2020.

They have been presented at numerous international congresses of sociology, peacemaking, education and others, at the UN and at UNESCO. They are found in the world's largest libraries, including UK, Congressional and leading universities on all continents.

But our achievements, which are represented by the banner, first of all, our "Global Peace Science of Spherons" (GPSS) are still very far from worldwide recognition. This requires the creation of an appropriate Humanitarian Academy of the GPSS, as a first step, of 20 to 30 scientists with a small funding of \$ 1 million for 2 years, which we are now actively seeking from various sources. The country that funds this Academy will ensure global technological leadership and prosperity in the 21st century. But the dark humor of the western "new world order" more than 75 years after Hiroshima and Nagasaki is that its suicidal, "exceptional democracies" easily find billions of dollars for the nuclear suicide of their peoples, with their approval. almost unanimous like lambs at the massacre of a nuclear guillotine. But they cannot find in 75 years, with their liberal billionaires and their rich human rights funds, a meager million dollars for the development of the science of world peace as the first fundamental instrument of the right to life. of humans and peoples. People and humans have been deprived of this right for over 75 years. The threat of nuclear suicide, fueled by trillions of democratic budgets, became catastrophic during this time, and modern liberal democracies have been powerless for 75 years to find a million dollars to start an alternative trend. Therefore, my goal and that of GGHA in the near future is to find the necessary funding in any way and start the International GPSS Academy as long as I am alive and have enough energy. . In this regard, my birthday not only sums up the results of the GHHA but also forces the pragmatic implementation of our spherons paradigm, the victory of which is inevitable and unquestionable in the 21st century. Will we have like-minded peace pragmatists? We will be happy and grateful to accept anyone interested in your practical suggestions into our global GPSS Academy pioneering team.

It will be the best contribution to the peace of harmony. I am happy to thank you all for over 16 years of unique and fruitful cooperation and to congratulate everyone on World Harmony Day, wish everyone good health and success in promoting the science of spherons as a decisive tool for achieving world peace.

## Dr Chintamani Yogi Nepal

Professor

### Shanti Sheva Community Center (ASS) Peace Service Center (PSC Nepal)

M Yogi dreamed of creating a place or shelter where he could integrate all services, bring all social organizations together on one platform, present a fantastic example of ecology and spirituality, connect east and west, connect nature and culture and unite spirituality with humanity. Shanti Sewa ashram translated into English: Peace service center promotes selfless service to humanity through programs that strengthen the intention of peace, promote interfaith cooperation, non-violence, and spiritual and philosophical awareness. ASS's hope is that disadvantaged youth, children, women and the elderly will benefit from holistic services regardless of religion, cast, gender, sect or nationality. SSA is a great open day where one can get service, prayer, awakening and pleasure. Holistic education Get up, wake up, stop until the goal is reached! Vidyaapeeth Hindu Schools (HVP) are founded on the belief that an education that promotes both academic excellence and trainings in spiritual, cultural and moral values will best equip a child to face the challenge of life and serve humanity. HVP was officially inaugurated on the auspicious day of Saraswati Pooja (honoring the goddess of knowledge) 1985, and thanks to the hard work and dedication of the work of the founder and coordinator Mr. Chintamani Yogi and the HVP team, now has three branches. HVP aims to produce a generation of capable, dynamic, engaged and thoughtful individuals who would dedicate their lives to world peace. HVP emphasizes the development in students of ideals such as peace, love, harmony, tolerance, brotherhood and non-violence.

## Alain Million France

Poet / Founding President "Life on the Move"

Humanist, citizen of the world, ambassador for peace, there is no lack of qualifiers to portray the Alsatian poet Alain Million recently and permanently installed in the town of Marseillan. The scholar did not come with his hands in his pockets. In his luggage he has followed most of his life which boils down to the fight against disability, especially that of children in distress, in Senegal 10 years of career of sacrifice, of fierce struggle and a commitment that he wishes to continue further today in Marseillan, by opening the branch of its association "la vie en marche". Its goal is to create reception structures adapted to the needs of the local population and to monitor the development of children's disabilities. Alain confides: "The richness of this program is to provide support, care and medical follow-up on site, where the child has his roots. We bring our knowledge for a smooth integration into Senegalese society". To achieve his ends, Alain had to deploy all of his energy throughout his life by surrounding himself with trusted people who believed in him and in his program. A successful bet in view of the number of members, colossal sums collected thanks to multiple actions carried out: 1300 children and adolescents supported in this project, thank him warmly.

His second passion is love for his adopted city Marseillan, to which he will dedicate many stories and poems, but also an ode that will undoubtedly become the future anthem of the city.

### Global Civilizational State GPA

Today, we are presenting once more the Scale as the best educating tool to bring about the change the people of the world need to achieve for their own survival. Now the Scale of Global Rights is a long term solution and is also a part of the Global Movement to Help mmof Global Community. In itself the Scale was designed to help all life on Earth. What would be preferable is that nations unite amongst themselves to help. Over time, we have seen the creation of the United Nations, the European Union, the South American Community of Nations, and the North American Free Trade Agreement. Except for the UN, these organizations are mainly concerned with trade and economics. Global Civilizational State offers a more meaningful union in the form of nine or more Global Governments. For instance the South American Community of Nations can be a Global Government by simply accepting the Global Constitution qqas a way of dealing between member nations. A Global Government is concerned not only with economics and trade, but also with the environment, health, agriculture, energy, food, social, cultural and many other essential aspects. The Federation of Global Governments would be the place of meeting between Global Governments. The very first step of the Federation, and maybe the only one, would be the approval of essential services aaamongst the participating member nations. Global Community zzhas researched and developed such services and listed them here. All of them are already in operation on a small scale. To act as a global policing force, as the GPA aspires to do, many foundations must be laid, especially regarding the move from wielding power derived from Global Civilizational State to legitimate global leadership. There are many required characteristics that are prerequisite for legitimate leadership:

1. Legitimate leadership is built upon trust. Those who are led must largely believe that the leader is committed to integrity, honesty, and transparent inquiry into problems. The leader's actions must align with his words
2. Legitimate leadership rests upon checks and balances, which are necessary to ensure power is not corrupted.

3. Legitimate leadership is an act of service. Those in power must show a primary interest in the good of the collective ahead of their self-interest. In this way, true leaders are mission-centered rather than self-centered.
4. Legitimate leadership empowers others appropriately rather than concentrating power disproportionately. In other words, true leaders produce more leaders and empower them as situations demand.
5. Legitimate leadership is visionary, carrying the torch of a possible future.
6. Legitimate leadership is willing to lead by example, including following a foundation of ethics, performing more than one's share of work, and making sacrifices where appropriate.
7. Legitimate leadership is compassionately fierce when something undermines the good of the whole. In a company this might mean the CEO fires a slacking employee. In a city, the police may jail a murderer. On a global level, this might even mean arresting those breaking global law.

The defence function of a leader requires that he safeguard the good of the whole by whatever the most skillful means are to accomplish that defence. While that is not a comprehensive catalog of leadership prerequisites, I do think those few requirements are foundational and relatively unquestionable. Without at least a solid foundation of those requirements, the GPA's actions among nation-states will remain those of a unilateralist leader rather than a global leader. We will be, and should be, legitimated in the role of a global leader among nation-states and validated as an enforcer of global law. Global Civilizational State offers a few recommendations for actions that would strengthen and legitimate the GPA's role as a true global leader by gradually creating an international structure that better safeguards the whole than we can ever do now as a unilateralist leader.

DEAR UNITED NATIONS MEMBERS, FRIENDS AND SUBSCRIBERS.

The meaning of life is a topic that must be occupied every day if we really like what we do and say. God wanted to create us, give us consciousness, intellect and above all sensitivity and granted us the ability to know and learn and to live with meaning and creativity, dedicated to daily discovery of the new and deep of the existence. In this process, we experience the joy of discovering new things, and as if we were still children, we act aware that there is a reason and a meaning to be lived every day.

Today, when the world seems to be out of its orbit, when nothing seems to make sense, we will seek in this forum, answers and opinions on the meaning of life, personally, emotionally, in the social and human daily life. , in who we are, which is so wonderful and amazing that we should be grateful to God for creating us with so much dedication and wisdom.

The meaning of life is the foundation of happiness. And happiness consists in achieving the goals that constitute our reason for being.

Your contribution is welcome. We need each other to consolidate this feeling into a common goal. Thank you for your participation in the form of an attached document of any extension sent to the publisher: [berolojoseph@aveviajera.org](mailto:berolojoseph@aveviajera.org)
